THE CHARITY HOSPITAL

OF LOUISIANA,

WAS FOUNDED IN THE YEAR 1786

BY

DON ANDRES ALMONASTER Y ROXAS,

To whose generous endowment, the munificence of the Legislature
of this State, and the liberality of the

STATE OF PENNSYLVANIA,

The community is indebted for the means of erecting this edifice, built in
the year

MDCCLXXXII

His Excellency A. B. Roman, being Governor and Ex-Officio President
of the Institution.

*To record which and inscribe hereon the names and contributions of
its distinguished benefactors,*

THIS TABLET HAS BEEN ERECTED.

In Memoriam,

SAMUEL LOGAN, M. D.

Born at Charleston, S. C., April 16, 1831, and died suddenly, while on duty, Jan. 12, 1893.

The deceased, descended of ancestors uniting the gentry of Scotland with families distinguished in the early annals of his native state, ever preserved through life and portrayed in every sphere of duty those high traits of character which were his own by right of birth.

Endowed by nature with special gifts which prepared him for his life-work, he attained a position in the profession of medicine worthy of the respect of all men.

As surgeon, operating on the field of battle during the civil war; as teacher of medicine in the schools of three of the southern cities, Charleston, Richmond and New Orleans; as visiting surgeon to the Charity Hospital for a period of twenty years; and as physician, practicing laboriously in this community for twenty-three years, his life was one of extraordinary industry and usefulness.

Appointed an administrator of the Charity Hospital on the 30th of July, 1892, and elected Vice-President at the next monthly meeting of the board, he at once entered into the spirit and purpose of the administration with that zealous interest which characterized the man in the discharge of every duty.

Sharing deeply the sorrow which his death has caused, and realizing most sensibly the loss sustained by this institution, the board of administrators, in special session held Jan. 18, 1893,

Resolved, That we mourn the death of a great physician, whose life exemplified all the highest attributes of his calling; the loss of one of the most useful and honored citizens of Louisiana; an administrator of special aptitude in the management of a public charity; and a friend of good counsel and rare fidelity.

Resolved further, That this memorial shall be inscribed on the minutes of the board, and that a copy, duly attested, shall be forwarded to the eldest son of the deceased, as an evidence of our sincere sympathy with the bereaved family.

A true extract from the Minutes of the Board of Administrators, at a special meeting held January 18, 1893.

EDWIN MARKS,
Secretary.

In Memoriam.

J. H. WIENDAHL, M. D.

* * * * *

Mr. G. W. Sentell then offered the following, which, after motion, seconded, was adopted, and the secretary directed to transmit the same to the family of the late DR. J. H. WIENDAHL:

"The Board of Administrators of the Charity Hospital, in regular meeting assembled, note with sincere regret the death of their late member, DR. J. H. WIENDAHL. Through the four years of his incumbency as an administrator he discharged the important duties of his trust with zealous ability.

"His sterling character as a man, his acknowledged skill and usefulness as a physician, and his broad minded and unceasing charity, endeared him in public estimation.

"We tender to his bereaved family our earnest sympathies in their distress."

A true extract from the Minutes.

EDWIN MARKS,
Secretary.

ANNUAL REPORT

OF THE

BOARD OF ADMINISTRATORS OF THE CHARITY HOSPITAL,

For the Year ending December 31, 1892.

CHARITY HOSPITAL }
STATE OF LOUISIANA, }
February 6, 1893. }

To His Excellency, Murphy J. Foster, Governor of Louisiana, Ex-Officio President
of the Board of Administrators of the Charity Hospital:

Your Excellency—I beg leave to submit for your consideration the following annual report of this institution. You will find, accompanying this report, those of the House Surgeon, House Committee, Finance Committee and of the Secretary and Treasurer, together with the Clerk's report, and which together embody and show the entire movement incidental to this administrative year:

Daily average of patients for year.....	670
Admissions	7735
Discharges	6573

It is gratifying to note the freedom from any epidemic diseases, and that whilst the number of patients have been at times unusually large, we have always been enabled to receive and properly provide and care for all applicants—none worthy being refused.

The increasing demands upon us by the indigent sick will require that we arrange some method of increasing our capacity. This important matter is receiving our most earnest considera-

tion, and we trust in the near future to be enabled to report having reached a satisfactory solution.

It is proper to call attention to the great want of a separate building for the treatment of contagious diseases. The importance of this pressing need requires no comment, and it will be the purpose of this board to spare no efforts to accomplish this purpose, and which recommends itself to us in keeping with the present progress of medical science.

It was decided by the administration that it would serve the best interests of the Hospital to abolish the pay ward, leaving it optional with patients to pay or not.

The two buildings erected for use of out-door clinics have been occupied since April 14, 1892. The service was then started, and has been of a most satisfactory character, both in the larger scope and facilities offered for the treatment of patients, as well as in the immense benefits it has afforded in relieving the crowded wards of the main building.

✓ It is with much satisfaction that we are enabled to report the contemplation of a careful and well matured system for our school, "for the training of nurses," and the anticipation of great benefits to accrue, not only to this institution, but also to the general public. ✓

We are negotiating for the purchase of iron bedsteads to replace all the wooden bedsteads now in use. The new furniture, which we contemplate purchasing and mentioned elsewhere, will be more in keeping with the wants of this institution and the system of hygienic improvements, which have been adopted.

The various committees have carefully and faithfully performed the important duties confided to them, with special view of keeping this Hospital fully up to the most approved requirements, and at the same time maintaining its economical administration.

The painful duty devolves upon me of reporting the great loss which this institution, as well as the general public, experienced in the untimely death of our late Vice-President, Dr. Samuel

Logan. He was a "true man," in the fullest acceptance of the word, with rare sense of justice to all, a purity of mind and of character which is given few men to possess—a devoted friend. He was charitable and unceasing in his attention to the many duties devolving upon him, and leaves behind him as a heritage to his children a name, pure, unsullied and without reproach.

We are also regretfully called upon to report the demise of our esteemed co-administrator, Dr. J. H. Wiendahl. His services for many years on this board were marked by high and elevated purposes, and his kindly and courteous nature endeared him to us, and causes his loss to be much felt by us.

We beg leave to express our high appreciation and thanks for the valuable, patient and self-sacrificing services rendered by the good Sisters of Charity, as also to the House Surgeon and his Assistants, for their constant devotion to their duties, which seem of an increasing character; to our Secretary and Treasurer, Pathologist, the Clerk and Engineer, and to all the personnel of the resident staff we also tender our high appreciation and thanks.

The Ambulance Corps have accomplished their usual good work assigned to them in a faithful and satisfactory manner.

The work of the past year has been of marked importance to this institution in the material improvement that is constantly being made, as well as in its interior successful and judicious administration. When it is borne in mind that at times nearly 1000 persons are within its walls, it requires very judicious and careful methods to have all work harmoniously and faithfully.

The administrators believe that the Hospital will stand favorable comparison with any general hospital, and it is their aim and intention to keep up fully with the most approved methods and progress in hospital hygienic administration.

We desire also to tender to the members of the visiting staff our grateful acknowledgments for the important and gratuitous services they render.

Respectfully,

WM. G. VINCENT,

VICE-PRESIDENT.

Report of the Secretary and Treasurer.

CHARITY HOSPITAL, }
STATE OF LOUISIANA, }
NEW ORLEANS, January 1, 1893. }

To the Vice-President and Board of Administrators:

Gentlemen—I beg to present herewith the usual tables of the Treasurer and to call your attention to the following matters :

LEGACIES.

On the 11th February, 1892, the Hospital was made the recipient of the legacy of the late Thos. Smith, Esq., of \$2500.

On the 23d August, 1892, the Hospital was paid the legacy of \$20,000, testated by the late J. F. Schweitzer, the death of Widow Jean Schweitzer, the testator's step-mother, terminating her usufruct of the amount.

LEASES.

The following leases of cotton press property were effected during the past year, to-wit :

Lease to Samuel Boyd and H. O. Benedict of thirteen lots in the Union Cotton Press, for three years, from September 1, 1892, and terminating August 31, 1895, at \$2,925 per annum, in quarterly notes of \$731.25 each.

Lease to Samuel Boyd of four lots in Shippers' Cotton Press, for five years, from January 1, 1893, and terminating December 31, 1897, at \$750 per annum, in quarterly notes of \$187.50 each.

LEASE OF THE BATTURE PROPERTY.

During the month of May, 1892, in accordance with the general terms of the lease previously existing, the owners in interest of the Batture Property, together with the lessees, the Texas and Pacific R. R. Co., assembled in the parlors of the Mayor of the City of New Orleans, and presented to his Honor, John Fitzpatrick, and the Hon. Frank A. Monroe, one of the judges of the Civil District Court, the legal board of arbitrators under the lease, all the facts and figures bearing upon it.

The decision of the arbitrators was rendered on the 30th May, and the amounts were apportioned the various owners on which the lease for the ensuing twelve years, terminating in May, 1904, are to be calculated on a rental basis of 8 per cent. per annum on pro rata of ownership. The lessees, the Texas and Pacific R. R. Co., have demurred at the decision and have appealed to the Circuit Court of the United States, where the matter is now pending. As soon as it is finally determined a proper lease will be executed.

Respectfully submitted,

EDWIN MARKS,
SECRETARY AND TREASURER.

Annual Report of the House Committee.

CHARITY HOSPITAL,
STATE OF LOUISIANA,
NEW ORLEANS, February 6, 1893.

To the Vice-President and Board of Administrators:

Gentlemen—Your House Committee would respectfully report that considerable progress has been made the past year in the direction of the general improvement of the buildings exteriorly and with the view of improving the ventilation and light of the interior. These desiderata have been constantly before your committee, and will be followed up until all such deficiencies have been fully supplied.

The front openings of the main building have been enlarged fully one-third their previous dimensions and four light windows introduced, in lieu of the small panes used since the original erection of the edifice in 1832. The enlargement of the windows has brought the openings flush with the ceilings of the wards, thus assisting the escape of the interior air and aiding the substitution of the outside atmosphere.

The old and decayed plaster on the front and ends of the main building has been removed, and Portland cement substituted.

The painting of the clinic and front office buildings, which has been made to coincide with the color of the main building, renders the entire group of buildings fronting on Tulane Avenue uniform in appearance.

The grounds fronting the main building have been fully improved with the Schillinger walks surrounding and leading to the outdoor clinic buildings.

The entire sidewalk on Tulane Avenue, formerly brick, has been relaid with the "Schillinger," and the drains in front properly graded and enlarged.

The expenditures for the past year were :

On account of improvements.....	\$10,819 95
On account of repairs.....	5,539 58

Making a total on both accounts of.....\$16,359 53

The clinic buildings have been thoroughly tested, and have been found satisfactory, hygienically, and for practical use. They were formally turned over to the state, April 11, 1892, and were appropriately received by the then executive, Governor Francis T. Nicholls.

It is in contemplation to refurnish the Hospital wards with iron bedsteads, aseptic cases for medicines and surgical dressings, and glass-covered tables, adopting the highest standard of those most approved of in the best regulated hospitals ; and your committee, under authority granted by your resolutions, are in correspondence with leading manufacturers of such articles. This indispensable improvement will necessitate a large outlay, but one imperatively needed and fully justified by the progress everywhere manifest in hygienic hospital furnishing. It is further contemplated to remodel and enlarge the rear openings of the main building to conform to those in front, and which will materially add to the ventilation of those wards.

The very important matter of the creation of the Training School for Nurses, conferred upon your committee, is in progress, and during the coming year will be put in full operation under the general system heretofore outlined. We have carefully endeavored, in its organization, to frame and develop a lasting system in the practical, as well as technical, medical instructions, and we trust the school will be of material benefit to this institution, as well as to the general public.

The Ambulance Corps have continued their satisfactory service, and have been fully enabled to respond to all calls.

Contracts for supplies to the Hospital have been satisfactorily filled.

Your committee, in conclusion, beg leave to return their earnest thanks to the excellent Sisters of Charity for the admirable manner in which all the arduous and unceasing duties devolving upon them have been performed. They would especially mention and commend the very important services of the chief engineer, Mr. John Ponder, who has been as assiduous as ever in the performance of his duties.

Respectfully submitted,

WM. G. VINCENT, CHAIRMAN.
A. R. BROUSSEAU.

Detailed cost of Construction, Furnishing, etc., of Outdoor Clinic Buildings, as per vouchers on file and examined :

Construction Account	\$33,493 50
Furnishing Account	3,952 76
Cost of Sewer Pipe.....	1,067 32
Cost of Schillinger Pavement	622 90
Architect's Fees	1,068 59
	<hr/>
	\$40,205 07

NEW ORLEANS, July 12, 1892.

EDWIN MARKS,
TREASURER.

Approved July 17, 1892.

GEO. SEEMAN,
FOR FINANCE COMMITTEE.

Annual Report of the Finance Committee.

CHARITY HOSPITAL, }
STATE OF LOUISIANA, }
NEW ORLEANS, February 1, 1893.

To the Vice-President and Board of Administrators:

Gentlemen—Your Finance Committee beg leave to report that the financial affairs of the Hospital are in a prosperous condition. Much of the surplus means on hand at the close of the past year will be absorbed during the current year by payments for the large and necessary work of interior furnishing, etc., about to be entered into by the Board.

The affairs of the Hospital have been administered with due economy. We have no recommendation to make.

Respectfully submitted,

G. W. SENTELL, CHAIRMAN.

GEO. SEEMAN,

HUGH McMANUS.

Annual Report of the House Surgeon.

CHARITY HOSPITAL,
STATE OF LOUISIANA,
NEW ORLEANS, December 31, 1892.

To the Board of Administrators:

Gentlemen—The medical and clerical records of the Hospital, including the tableaux of diseases classified in accordance with the statutes, and also the usual special reports briefly summarizing the work of the year, are herewith respectfully submitted.

At the last annual report, 686 patients remained under treatment; during the year 7735 new patients were admitted, making a total of 8421 inmates treated; white, 5491; colored, 2930. The daily average of patients during the year was 670.

The number of inmates is 1073 in excess of the previous year. The increase in the number of admissions is due largely to the epidemic prevalence of La Grippe, and the multifarious ills which it entails.

Since the establishment of the Children's Department, in 1884, there has been a gradual increase in the number of admissions. There were 219 children under 10 years of age admitted during the year. Many of these little patients suffer of surgical diseases and deformities, which necessitate the use of orthopedic apparatus, and we respectfully recommend an increased expenditure in this department in the purchase of special appliances, rolling chairs, etc., indispensable in the proper care of crippled and deformed children.

Of the 8421 inmates treated, 6573 were discharged; cured 3163, or 48 per cent.; improved 2194, or 33 per cent.; unim-

proved 1216, or about 19 per cent. There were 1135 deaths, a mortality of 13 per cent.

The number of visiting patients treated in the wards of the Hospital, from January 1, to April 1, was 3648. The number of consultations in the Outdoor Department, since it was opened on the 1st of April, was 41,026. The organization of the Outdoor Clinics as a separate department, and their inauguration on the 12th of April, under the auspices of his Excellency, Governor Francis T. Nicholls, was a very important event of the year. These clinics are now thoroughly organized, offering facilities in the various clinical divisions for the treatment of all diseases, medical, surgical and special, occurring in men, women and children, white and colored. The medical service in this department has been improved by the election of the corps of externes, who supplement the work of the internes without any official friction. We beg to recommend the adoption of a rule restricting the election of externes, as well as internes, to those students who have attended one full course of lectures, and who have passed satisfactorily a competitive examination. The externes, in our judgment, should be elected for one year, with the privilege of retiring at the expiration of six months; and at the close of their term, if deemed worthy, they should receive a certificate of their service.

The Ambulance Corps have done good work and sustained the reputation of this department by their zeal and efficiency. The calls answered during the year numbered 1484. Many calls are needless, and this evil must still exist unless the telephone company urge upon their patrons the necessity of restricting the use of their instruments for summoning an ambulance only to such persons as are perfectly responsible.

The separation of the Outdoor Department from the Indoor and all the conveniences and advantages incident thereto, have prepared the way for various changes and improvements in the household management, and, fortunately, the very munificent

donation of Mr. J. F. Schweitzer has provided the means essential to the work. In this connection, the following suggestions are respectfully submitted :

That iron bedsteads, specially designed and constructed for the purpose, shall take the place of the wooden bedsteads now in use.

That as many metal framed, glass-topped tables as beds, shall be purchased for use in the wards.

That every ward of the Hospital shall be furnished with an aseptic case for holding medicines and surgical dressings.

That rubber matting shall be substituted throughout the buildings for all material made of cotton or wool.

That all utensils used in the wards for domestic or medical purposes shall be made of china, glass or enameled metal, to the exclusion of all wares of inferior quality.

It was clearly the intention of the benefactor that the working facilities of the Hospital should be improved to the extent of his donation of \$20,000, and, in our judgment, the suggestions above indicate a very useful way in which a part, at least, of this donation may be applied.

The organization of the Charity Hospital Training School, now in charge of your special committee, intended to carry out the system of nursing contemplated by Sister Agnes, is a matter of very great importance, and this movement should be fostered in every possible way. As soon as the means of the hospital will permit, a home for the nurses should be erected on these premises.

In the internal medical management several changes have occurred which deserve mention. The inadequacy of accommodation for colored patients forced us to give another ward to the medical diseases of colored men. The number of colored patients admitted during the year was 715 in excess of the previous year. All the colored wards are crowded. A movement has been initiated by the colored people of this city, aided by their friends here and elsewhere, looking to the establishment of a hospital in New

Orleans for the colored race. A hospital for the colored people of this State, commensurate in importance with their educational institutions, would be a charity of incalculable benefit to them.

The closure of the pay ward of the Hospital has removed a class of privileged patients, who were a source of much vexation, arising from their complaints and demands, which usually quite exceeded the small amount paid into the treasury. The internal management of the house has been greatly simplified by creating the impression in the minds of all patients that they have equal rights and enjoy equal advantages in a public charity.

The medical facilities of the Hospital would be greatly improved if means could be provided for the following purposes, which we beg leave to suggest :

The establishment of accident wards for the reception of the moribund and patients admitted at night. The room now in use is inadequate for the purpose.

Wards for the separate treatment of malodorous diseases, such as gangrenous wounds, fetid abscess, extensive burns and scalds, etc.

Rooms separate from the Main Building for the temporary care of patients wildly delirious and maniacal.

Wards in a separate building for the special care of contagious and infectious diseases.

The construction of a new Amphitheatre, or surgical operating room, of modern pattern and equipment, in accordance with all the requirements of the advanced surgery of the day. The benefactors of the eastern cities have given liberally to the construction of such operating rooms in connection with some of the most renowned of their hospitals. The models of such surgical rooms are found to-day in connection with the Massachusetts General Hospital, of Boston, and the Presbyterian and Roosevelt Hospitals, of New York. As means have already been provided for the accomplishment of so many works of improvement, urged in our early annual reports, we have an abiding faith that some

day all, or nearly all, of these improvements herein suggested will be effected.

The work of the year has been saddened by the death of Sister Philomena, who devoted many years of her long and useful life to the service of the Hospital; also by the death of Mr. H. F. Thigpen, whose record as a resident student was excellent and whose character without reproach; and again by the death of Mr. John Johnson, the chemist for twenty years, who died suddenly on the 1st of December.

Our grateful acknowledgments are due to the resident and visiting staff for the part they have borne in the work of the year; and especially to the Assistant House Surgeon, Dr. J. D. Bloom, whose meritorious services we desire to commend.

By their unflagging faithfulness, at all times, in the discharge of every duty connected with the care of the sick, the Sisters of Charity deserve our sincerest gratitude.

Herewith are presented, with our approval, all the annual reports of the special branches of the Medical Department.

In conclusion, we beg to report favorably on the general condition of the Hospital. The improvements already inaugurated under your administration, and those now contemplated, will surely redound very greatly to the benefit of the Hospital and the thousands who annually receive its charity.

Respectfully submitted,

A. B. MILES,
HOUSE SURGEON.

Pathological Department.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, February 1, 1893.

To the Honorable Board of Administrators of the Charity Hospital:

Gentlemen—I beg to report that the following work has been done in the Pathological Department during the year 1892:

Autopsies held.....	180
Specimens of Urine examined.....	1072
Specimens of Tumor examined.....	49
Specimens of Sputum stained and examined for Bacillus Tuberculosis.....	290
Specimens of Fluid examined.....	11
Different Pathological specimens examined.....	2
Sections cut of 52 different specimens, 10 (average) of each...	520
Sections permanently mounted for microscopical collection...	42
Photographs taken.....	40

2206

Respectfully submitted,

HENRY DICKSON BRUNS,

PATHOLOGIST.

Annual Report of the Dental Clinic.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, December 31, 1891.

Dr. A. B. Miles, House Surgeon :

Dear Sir—I herewith transmit the report of the Dental Clinic for the year ending December 31, 1892 :

Total number of patients.....	1160
Male.....	458
Female.....	702
Total extractions.....	1607
Permanent teeth.....	1331
Deciduous teeth.....	276

DISEASES TREATED.

Periodontitis	218
Pulpitis	311
Alveolar abscess.....	756
Alveolar absorption.....	134
Irregularity corrected..	10
Removal of epulis.....	1
Removal of necrosis, alveolar process.....	1

Respectfully submitted,

ANDREW G. FRIEDRICH, M. D.,
L. D. ARCHINARD, D. D. S.

Annual Report of Ambulance Service for 1892.

NUMBER OF CALLS.

Surgical.....	646
Medical.....	161
Dressed.....	303
Conveyed home.....	68
Obstetrical.....	25
Died.....	57
False.....	130
Not needed.....	36
Transfer calls.....	58
Total.....	1,484

Respectfully submitted,

L. JUSTIN,

LIBRARIAN.

There were 3,648 cases treated prior to April 1, in the Indoor Department.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS
IN THE CHARITY HOSPITAL FOR THE YEAR 1892.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Unimproved.	Died.		
Abdominal Sections—						
Gunshot Wound.....	1				1	Three Intestinal Wounds. One Mesenteric Wound.
Gunshot Wound.....	1				1	One Colon Wound. One Wound of the Mesentery.
Gunshot Wound.....				1	1	Two Wounds of Stomach.
Gunshot Wound . . .				1	1	Two Wounds of Stomach.
Gunshot Wound.....				1	1	One Intestinal Wound.
Gunshot Wound.....				1	1	Five Intestinal Wounds. Three Wounds of the Mesentery.
Gunshot Wound.....				1	1	Twenty Intestinal Wounds.
Gunshot Wound.....	1				1	Fourteen Wounds of Small Intestines.
Gunshot Wound.....	1				1	Ten Perforations of the Small Intestines.
Penetrating Wound.....	2				2	Knife Wounds.
Amputations—						
Arm.....	2				2	Railroad Injury.
Arm.....	1				1	Poisoned Wound of the Hand.
Arm.....	1				1	Compound Fracture of the Forearm.
Forearm.....	2				2	Compound Fracture.
Foot (Lisfranc's).....	1				1	Railroad Injury.
Foot (Choparts').....	1				1	Frost Bite.
Foot (Choparts').....	1				1	Machinery Injury.
Leg.....	1				1	Osteo-Sarcoma of Ankle.
Leg.....	10	1			11	Railroad Injury.
Leg.....				1	1	Railroad Injury. Tetanus.
Leg.....	1				1	Lacerated and Contused Wound of Foot.

Leg.....	1			1	Tubercular Necrosis of Tibia and Fibula.
Leg.....	4			4	Necrosis of Bones of Foot.
Leg.....	1			1	Compound Fracture.
Thigh.....	1			1	Chronic Ulcer of Leg.
Thigh.....			1	1	Thrombus Femoral Artery.
Thigh.....	2			2	Railroad Injury.
Thigh.....			1	1	Railroad Injury. Gangrene.
Thigh.....	1			1	Necrosis of Tibia. (Syphilitic).
Thigh.....			1	1	Gunshot Wound. Septicaemia.
Thigh.....			1	1	Gunshot Wound Foot. Gangrene.
Thigh.....	1			1	Gunshot Wound Leg.
Thigh.....			1	1	Tubercular Knee Joint.
Thigh.....			1	1	Gangrene of Leg.
Synchronous Amputation of Thigh and Leg.....			2	2	Railroad Injury.
Mickulicz's Amputation.....		1		1	Necrosis of the Calcis.
Excisions and Resections—					
Tubercular Testicle.....	1			1	
Tubercular Axillary Glands.....		2		2	
Epithelioma of Arms.....		1		1	
Epithelioma of Face.....	2		1	3	
Epithelioma of Lip and Submaxil- lary Glands.....	1			1	
Epithelioma of Ear.....			1	1	
Epithelioma of Tongue.....		1		1	
Tarsal Bones.....	1			1	Congenital Equino-Varus.
Axillary Glands.....	1			1	Tubercular Enlargement.
Inferior Maxilla.....	1			1	Sarcoma.
Inferior Maxilla.....	2	1		3	Osteo-Sarcoma.
Inferior Maxilla (half).....		1		1	Necrosis.
Carcinoma of Parotid Region.....		1		1	
Carcinoma Inferior Maxilla Region	1			1	
Fibro-Cystic Tumor of Breast.....	1			1	
Fibro-Sarcoma of Breast.....	1			1	
Lipoma of Breast.....	2			2	
Scirrhus of Breast.....	2			2	

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—CONTINUED.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Unimproved.	Died.		
Excisions and Resections—Continued.						
Breast.....	1				1	Epithelioma.
Elbow Joint.....	1				1	Gunshot Wound.
Elbow Joint.....		1			1	Suppurative Synovitis.
Rib.....		1		1	1	Empyema.
Rib.....	1			2	1	Abscess of Liver.
Lipoma Lumbar Region.....	3				3	
Lipoma Shoulder.....	1				1	
Herniotomy—						
Strangulated Hernia.....	3			1	4	
Incarcerated Hernia.....	1			1	2	
Radical Cure (McBurney).....	1				1	
Radical Cure.....				1	1	
Incisions—						
Abscess of Liver.....	5	1		5	11	
Scrotal Abscess.....	1				1	
Intra-Mural Abdominal Abscess.....	2				2	
Peri-Rectal Abscess.....	1	1			2	
Gluteal Abscess.....	1				1	
Tubercular Abscess Thigh.....		1			1	
Tubercular Iliac Abscess.....				1	1	
Hip Joint.....		1			1	Suppurative Arthritis.
Abdominal.....	1				1	Pelvic Abscess.

Ligations—				
External Iliac.....			1	1 Traumatic Femoral Aneurism.
Femoral.....	1			1 Aneurism of Femoral.
Osteotomy—				
Occipital Bone.....		1		1 Necrosis.
Inferior Maxilla.....		1		1 Necrosis.
Clavicle.....	1			1 Necrosis.
Sternum.....	1			1 Necrosis.
Radius.....		2		2 Necrosis.
Ribs.....		3		3 Necrosis.
Tibia.....	11	2		13 Necrosis.
Fibula.....	1			1 Necrosis.
Tarsus.....	1		1	2 Necrosis.
Operations on the Genito-Urinary Organs—				
Hydrocele.....	2			2 Volkmann's Operation.
Hydrocele.....	2			2 Radical Cure.
Urethrotomy, Internal.....	1	1		2 Stricture of Urethra.
Urethrotomy, External.....	1	5		6 Stricture of Urethra—Urinary Infiltration.
Urethrotomy, External.....	2	5		7 Stricture of Urethra.
Urethrotomy, External.....	1			1 Chronic Cystitis.
Divulsion.....		1		1 Stricture of Urethra.
Cystotomy Supra-pubic.....		2		2 Chronic Cystitis.
Amputation of Penis.....	4	1		5 Epithelioma.
Amputation of Penis, Removal Inguinal Glands.....		1		1 Epithelioma.
Amputation of Penis.....	1			1 Phagadenic Chaneroid.
Operations on the Female Generative Organs—				
Hysterectomy, Vaginal.....	1		2	3 Cancer of Uterus.
Hysterectomy, Vaginal.....	1			1 Prolapse of Uterus.
Laparotomy.....		1		1 Fibroid of Uterus.
Laparotomy.....			1	1 Subperitoneal Fibroid.
Laparotomy.....	1			1 Submucous Fibroid.
Laparotomy.....		1		1 Fibroid of Mesentery.
Laparotomy.....	1			1 Colloid Cancer of Omentum.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—CONTINUED.

Operation.	Result.				Total.	Diagnosis. Remarks.
	Cured.	Improved.	Unimproved.	Died.		
Operations on the Female Generative Organs—Continued.						
Oophorectomy.....	2				2	Cystic Ovary. Salpingitis.
Oophorectomy. Ventral Fixation...	1				1	Procedentia. Ovaritis.
Oophorectomy.....	4			1	5	Suppurating Tubes and Ovaries.
Oophorectomy.....	9				9	Chronic Salpingitis.
Oophorectomy.....	1				1	Prolapse of Ovary.
Oophorectomy.....				1	1	Calloid Cancer of Ovaries.
Oophorectomy.....	1				1	Sarcoma of Ovaries.
Oophorectomy.....	1				1	Hystero-Epilepsy.
Ovariectomy.....	3				3	Ovarian Cysts.
Colporrhaphy, Ant.....	2				2	Cystocele.
Perineorrhaphy.....	18				18	Lacerated Perineum.
